On the 1st death anniversary of Bollywood Singer KK, my serendipitous Twitter encounter with the late legend led to an extraordinary collaboration. As a Musician, DJ, Filmmaker, and Journalist, I fulfilled my dream of working with KK. Our online interaction blossomed into an unforgettable journey, where I contributed to his digital presence and crafted a tribute album in his honor. As we approach the first anniversary of KK's passing, I reflect on his profound influ-

ence on my life and his lasting legacy. This tribute honors the musical maestro, highlighting his remarkable achievements and ongoing impact in Bollywood music.

A tweet caught my attention—an avid fan of KK sought Twitter verification. I had the verification form and decided to help. KK publicly endorsed my efforts, and I submitted the request on his behalf. Miraculously, within 48 hours, his personal account (@k_k_pal) received the coveted blue checkmark, signifying official verification. This captivating journey unfolded as Twitter verification was typically reserved for influential figures with a strong presence. With luck and admiration, I embarked on this endeavor, overwhelmed with excitement at the successful outcome.

In collaboration with KK, I conceived a musical tribute—an album called "Breathless" dedicated to his exceptional melodies. Released in 2015, it received overwhelming acclaim from fans and experts, strengthening our bond and highlighting KK's lasting legacy. Despite his untimely departure in 2022, his fans still mourn while cherishing his musical heritage.

Palwasha Abbasi's Inspiring Commitment to Country and the Armed Forces

This is an Exclusive Story, Thanks to Palwasha Abbasi for giving her precious time and sharing her response with me (EMEA Tribune) for the readers. Nowadays, many young people are falling into the hands of bad actors on social media platforms, inadvertently sharing provocative videos and misleading information without verifying them against the state and armed forces. However, amidst this concerning trend, there are individuals like Palwasha Abbasi who stand firmly in favor of their country and its armed forces. Palwasha has paid a heavy price for her unwavering stance, enduring the onslaught of trolls and abusers.

PALWASHA ABBASI

What happened on May 9th was very wrong: Palwasha Abbasi (Former PTI member)

www.emeatribune.com

Kamal: Hello Palwasha, Thanks for giving me your time, please tell me "What is your stance on the May 9th Incident"?

Palwasha: What happened on May 9th was very wrong, but what was even more wrong was the lack of strong condemnation from the party (PTI) involved. Despite the evidence, those individuals who were involved in this wrongdoing are not being held accountable by the party.

PALWASHA ABBASI

The trolls only make me stronger: Palwasha Abbasi

www.emeatribune.com

Kamal: These days, there is a lot of propaganda against the state and military happening on social media. What is your message to the youngsters who, based on the tweets of people sitting abroad, speak against these institutions?

Palwasha: The youngsters who are influenced by negative elements and speak ill of their own military fail to see the reality that their institution will always remain present in the country.

Kamal: How do you deal with trolls on social media, especially Adil Raja and other PTI supporters who have suddenly started speaking against you, ranging from bashing to defaming you?

Palwasha: These trolls only make me stronger, but they neither have complete knowledge nor the background of the matter. Such people twist the teachings of their own homes and leaders. It saddens me to see their mental state and language. If they were polite individuals, this country would have progressed far ahead. I'll also blame PTI for this.

Everyone knew that Adil Raja was spreading lies against me, but no one from PTI stopped him. In fact, some PTI leaders supported him and questioned my loyalty because I raised my voice against Adil Raja. My tweets were based on appreciating the Pakistani military. You can use workers for your own benefit and not stand by them when the time comes. This shows how much value you place on the workers. It is not the workers who need the party, but the party that needs the workers.

NUTRITIONIST MARRIUM SHAH EXCLUSIVE

Marrium Athar, also known as Marrium Shah sat with an editor of EMEA Tribune, DJ Kamal Mustafa for this exclusive pitch. Marrium is a highly accomplished professional specializing in the areas of reflexology, facial reflexology, and nutrition. With a wealth of qualifications and experience, she has dedicated her career to promoting wellness

and helping individuals achieve optimal health. Marrium's own personal struggles with severe hormonal issues ignited her passion for nutrition and led her to overcome these challenges through a committed and meticulously crafted diet, specifically the 'Alkaline diet with protein.'

An alkaline diet is a dietary approach that prioritizes the consumption of alkaline-promoting foods to maintain the body's pH balance. The underlying theory suggests that certain foods when metabolized, leave an acidic residue in the body, which can potentially contribute to various health problems. By incorporating more alkaline foods into one's diet, it is believed that the body's pH level can be balanced, thereby promoting better overall health.

DJ Kamal Mustafa

Kamal@emeatribune.com

One remarkable aspect of Marrium's journey is her ability to conceive her third child after undergoing laparoscopy, despite doctors initially informing her that she would be unable to conceive again. Although she encountered various complications along the way, Marrium, being a nutritionist herself, delved into extensive research to support other women facing similar circumstances. Through her personal experience and knowledge, she discovered the tremendous benefits of an alkaline diet rich in protein, which played a significant role in her journey.

Marrium had also been diagnosed with Stage 3 Endometriosis, a condition for which no known cure currently exists. However, she has become a beacon of hope for countless women by exploring various treatment options and sharing her findings. Her research has provided invaluable insights and support to thousands of females grappling with the challenges posed by endometriosis.

In addition to her expertise in nutrition, Marrium has obtained qualifications as a reflexologist and facial reflexologist from Regents University London. Furthermore, she holds a Level 3 diploma in healthy eating and well-being, underscoring her commitment to continuously enhance her knowledge and skills in order to empower others to take charge of their own health. Marrium Athar, or Marrium Shah, remains deeply invested in the field of holistic health and wellness, making a significant impact through her unique combination of personal experience, qualifications, and research.

Her personal journey, coupled with her extensive qualifications and research, enables Marrium to provide valuable guidance and support to individuals seeking to improve their overall well-being. Through her expertise, she empowers others to make informed choices and take proactive steps toward achieving optimal health. Marrium Athar continues to inspire and positively influence the lives of many, making significant contributions to the field of holistic health and wellness.
